## Experience

CUNY TechWorks — Queens, NY — June 2019

*Assistant Technical Instructor*

- Supported a class of 22 students through their coding intensive by offering one-on-one assistance and technical coaching.
- Served as an additional resource for advice, special instruction, and example projects to ensure the students were supported throughout the program.

St. Ann's Warehouse — Brooklyn, NY — September 2017 - Present

*Front-of-House Staff Member*

- Worked in a team to handle events with capacities of up to 700.
- Ensured a smooth run of the show by handling patron concerns and monitoring the audience during performances.

American Associates of the National Theatre — New York, NY — July - Dec 2017

*Development and Special Events Assistant*

- Managed donor database with Tessitura database management software
- Communicated with top-level donors and assisted in coordinating tax returns for foundations and individual donors

---

## Projects

The Dot and the Line

<http://thedotandtheline.herokuapp.com>

- Based on the short story by Norman Juster, The Dot and the Line is a game designed to accompany the 1965 animated short film's narration and score. The project is built on Phaser 2, a JavaScript library designed for game development.

Feeling

<http://feeling.herokuapp.com>

- Feeling is a content discovery app that delivers poems, music, and events to users based on their chosen emoji "mood" using a variety of APIs.

Super Smash Academy

<http://supersmashacademy.herokuapp.com>

- Behind the retro graphics made with SASS for CSS is a Ruby on Rails web application with CRUD capabilities and a SQL database.

---
